

Cobra Pulling Rods:

Description:

Our Cobra pulling rod systems are supplied on an A Frame for ease of use, providing a cost effective solution when pulling cables through conduit, ducting and cavities. Other applications include surveying with CCTV cameras and threading draw ropes.

More labour efficient than the traditional screw together style rod.

Available from stock in the below sizes, bespoke sizes and lengths available on request.

Technical Specification:

Material: Rod: Reinforced Fibreglass.
A Frame: Zinc Plated Steel.

Contents: Rod (length varies) with a brass guide tip, pre-rolled onto an A Frame.

Dimensions:

Product Code	Rod Size	Rod Length	Length	Width	Height
